

## FLOTEC: DRESSING FOR FIELDWORK CHECKLIST

As most students start Level II Fieldwork in the upcoming semesters, the Florida Occupational Therapy Consortium (FLOTEC) is sharing the following dressing tips for students to consider prior to reporting at their respective fieldwork sites. Students are encouraged to review the criteria on the dressing checklist for professional presentation in the work environment. The various criteria must be met in addition to any site-specific requirements. Fieldwork educators and center coordinators for fieldwork education may also use this checklist and include it in their student orientation manual and/or fieldwork resources.

Criteria	Met	Not Met	Comments
Overall neat & clean grooming			
No strong perfume or cologne			
Facial piercings are removed			
Conservative use of jewelry/accessories			
Tattoos are covered			
Nails are neat and trim			
Overall neat & clean appearance of clothing			
Appropriate fit to clothing			
Appropriate shirt choice			
Conservative neckline			
Chest/cleavage remains concealed when bending forward			
Abdomen/low back remains concealed when reaching overhead			
Appropriate choice of pants/skirt			
Low back remains concealed when sitting			
Low back remains concealed when performing a transfer			
Low back remains concealed when kneeling and reaching forward			
Undergarments remain concealed during all movements			
Appropriate footwear			
Wearing socks/stockings			

### Shopping tips:

- Females - purchase several high neck t-shirts that can be worn under other shirts.
- Select pants that are labeled “sits above waist” or “sits at waist”.
